PRODUCTS AND SERVICES

Products and services displayed on the website may not be eligible for sale or available to residents of certain countries or certain categories of investors. Please consult the applicable terms and conditions such as sales restrictions or key specific notes for further information. Any materials available on the website have no regard to the specific investment objectives, financial situation or particular needs of any specific recipient. Any report available on the website is published for information purposes and is not to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Unless specifically stated otherwise, all price information is indicative only. No representation or warranty, either express or implied, is provided in relation to the accuracy, completeness or reliability of the materials, nor are they a complete statement of the securities, markets or developments referred to herein. The materials should not be regarded by recipients as a substitute for the exercise of their own judgement. Any opinions are subject to change without notice and may differ or be contrary to opinions expressed by other business areas or groups of DIVAS Asset Management AG as a result of using different assumptions and criteria. DIVAS Asset Management AG is not under any obligation to update or keep current the information contained herein.

NO OFFER

The information contained in the DIVAS Asset Management AG website is just for informational purposes. No information published on the website constitutes a solicitation, an offer, or a recommendation to buy or sell any investment instruments, to effect any transactions, or to conclude any legal act of any kind whatsoever. DIVAS Asset Management AG does not intend to provide investment, legal or tax advice through the website and does not represent that any securities or services discussed are suitable for any investor. When making a decision about your investments, you should seek the advice of a professional financial advisor.

NO WARRANTY

The information and materials contained on the website are provided "as is" and "as available". DIVAS Asset Management AG makes no representations or warranties of any kind, either express or implied, with respect to the information and functionality contained in the website, including but not limited to warranties of title, non-infringement, merchantability or fitness for a particular purpose. Without limiting the foregoing, DIVAS Asset Management AG does not warrant the accuracy, timeliness, completeness, reliability or availability of the website or the information or results obtained from use of the DIVAS Asset Management AG website, or that the website is virus-free or error-free.

NO LIABILITY

To the fullest extent permitted by law, in no event shall DIVAS Asset Management AG or any of its directors, employees or agents have any liability whatsoever to any person for any direct or indirect loss, liability, cost, claim, expense or damage of any kind, whether in contract or in tort, including negligence, or otherwise, arising out of or related to the use of all or part of these web pages, even if DIVAS Asset Management AG has been advised of the possibility of the same.

Currency Risk – Non-Base Currency Share Class: Non-based currency share classes may or may not be hedged to the base currency of the Fund. Changes in exchange rates will have an impact on the value of shares in the Fund which are not denominated in the base currency. Where hedging strategies are employed, they may not be fully effective.

Equity: Investments in equities may be subject to significant fluctuations in value.

Capital at risk: All financial investments involve an element of risk. Therefore, the value of the investment and the income thereof will vary and the initial investment amount cannot be guaranteed.

There is no guarantee of trading performance and past performance is not necessarily a guide to future results. In particular the results and graphs above may contain hypothetical performance results. Hypothetical performance results are based on various assumptions and may have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown; in fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program. One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk of actual trading. For example, the ability to withstand losses or to adhere to a particular trading program in spite of trading losses are material points which can also adversely affect actual trading results. There are numerous other factors related to the markets in general or to the implementation of any specific trading program which cannot be fully accounted for in the preparation of hypothetical performance results and all of which can adversely affect trading results. Hypothetical performance results are shown for illustrative purposes only and are not to be relied upon for making investment decisions. Clients must base their decisions on their own understanding of the strategy, the service or product and market views.

DIVAS Asset Management AG may act as a hedging advisor. Any hedging activities carry substantial risks. Hedging can involve short-selling of asset classes with unlimited downside risks in certain cases. Prospective clients hedging their portfolio might miss significant upside in the assets they hedge. Furthermore, there is always a bias between the assets being hedged, and the results of the hedging strategy (it is not possible to obtain a continuous hedge with a fix correlation of -1 over time). This bias typically increases in situation of market dislocations, as the assets being hedged are typically less liquid than the instruments used for the purpose of hedging these, and the losses of the assets being hedged become higher than the gains of the hedging strategy on the back of an increase in the liquidity premium.
